

NDG Project

Transforming our community through love

November 4, 2020

How do we transform NDG into the greatest community in the world?

First and foremost is that every resident must be living above the poverty line, with sufficient buying power for an adequate roof over their head (and their families), three square, good meals in their belly every day, ample money for necessities (of which I include phone, tv and internet) as well as a measure of surplus in the event of an emergency.

Secondly, we need to develop a close network which includes all residents of the area, all businesses and all organizations - and we need to have everyone pulling in the same direction. This will tie us all together and will virtually guarantee that every member of our community has access to all news, events, products and services.

Thirdly, in order to truly be the greatest community in the world, we need a system whereby every person in our neighbourhood is growing towards the life of their dreams. We have an amazing person in our community named Miles Krol. While by profession he is a fitness trainer, his ultimate goal is to help the people of NDG towards living their ultimate life.

These are my thoughts and ideas on how we can move from where we are to where we dream of being. I'd love to hear your thoughts. You can email me at rossG3@gmail.com

Looking forward to hearing from you soon!

Love,
