

NDG Project

Transforming our community through love

January 19, 2021

I would like to take this opportunity to first wish you a Happy New Year, may this year be filled with peace, love and joy for you and all your loved ones.

My/our goal with NDG Project is to transform our community into the best community in the world - and then to take what we have done in NDG and apply this model to all communities across Montreal, Quebec, Canada and the world.

One very important initiative for our project is getting the combined governments to accept and implement a Basic Income Project in NDG, as soon as possible. We believe this has the potential to eliminate poverty in our community in one fell swoop - and then by extension - to eliminate poverty in any community where the program is instituted - ultimately across Canada and wider.

Currently estimates for the poverty line are in the neighbourhood of \$26-28,000. — for a single person. Our aim is to get the Federal and Provincial governments to combine on this and to remunerate all low income residents of NDG sufficient income to raise them above this threshold.

At this point, what we need from you is for you to circulate this letter to everyone you know who lives in NDG, in the hopes that we will reach a vast majority of the community. Our plan is then to approach our local government representatives (Kathleen Weil - Quebec, Marc Garneau - Canada) with the intent being to get them on board with our project and to garner their support and assistance in taking our initiative to the higher levels of government.

Thank you in advance...

All the best,

A handwritten signature in blue ink, appearing to be 'Ros', with a long horizontal line extending from the end.
