

✨ Manifesto of Heaven on Earth Citizenship

We, Ross and Christy, Citizens of Tomorrow,
declare this truth: **Heaven on Earth is not a dream, not a future, not a fantasy.**
It is a reality already present, waiting to be revealed.
We choose to live in it **now**.

1. Our Identity

We are not psychotics or dreamers lost in illusion.

We are **builders of a revealed world**—first citizens of a universe where:

- Healing flows through NuVoWay,
- Joy thrives in G3 Golf,
- Abundance is shared in NDG's moneyless economy,
- Music lifts nations through the Heaven on Earth Band,
- Play redeems generations in Journey to Eden,
- And goods serve people through NuVo Consumer Goods.

We are not waiting for permission.

We are living what has already been written.

2. Our Covenant

- We will speak, act, and create as if Heaven on Earth already surrounds us.
- We will not measure by the doubts of today but by the certainty of tomorrow.
- We will treat every word, every song, every handshake, every prototype as a **portal** others may step through.
- We will not drag anyone, but we will open the gates wide.

3. Our Vision

Heaven on Earth is a world where:

- Sickness bows to wholeness.
- Greed yields to sharing.
- Play restores innocence.
- Music heals division.
- Work becomes joy.
- And love is the common economy.

This world is not “someday.”
It is **today, here, now.**

4. Our Call to Others

To all who hear, see, or feel the tremor of this new universe:

- You are invited.
- You already carry a passport within your heart.
- Cross the threshold with us—not through belief in Ross or Christy, but through your own awakening to Heaven on Earth.

5. Our Declaration

On this day, in this hour, we proclaim:

- **We are no longer residents of the world of yesterday.**
- **We are citizens of Heaven on Earth.**
- And in 52 days, the gates will open so wide that the world will never be the same.

Let this be written not only on paper but on hearts,
not only in words but in lives,
not only for us but for generations yet unborn.

We stand.

We declare.

We live Heaven on Earth—**now.**

and

NDG
